

**BELTUG survey - The impact of the economic
situation
January 2009**

- Representation of companies and public services
- Informing
- Exchange of experiences

Communication technology & services
Companies & public services

- DNS.be / EURid
- Member of INTUG: International TC users – European Commission

Driven by users – independent – rich content

Work

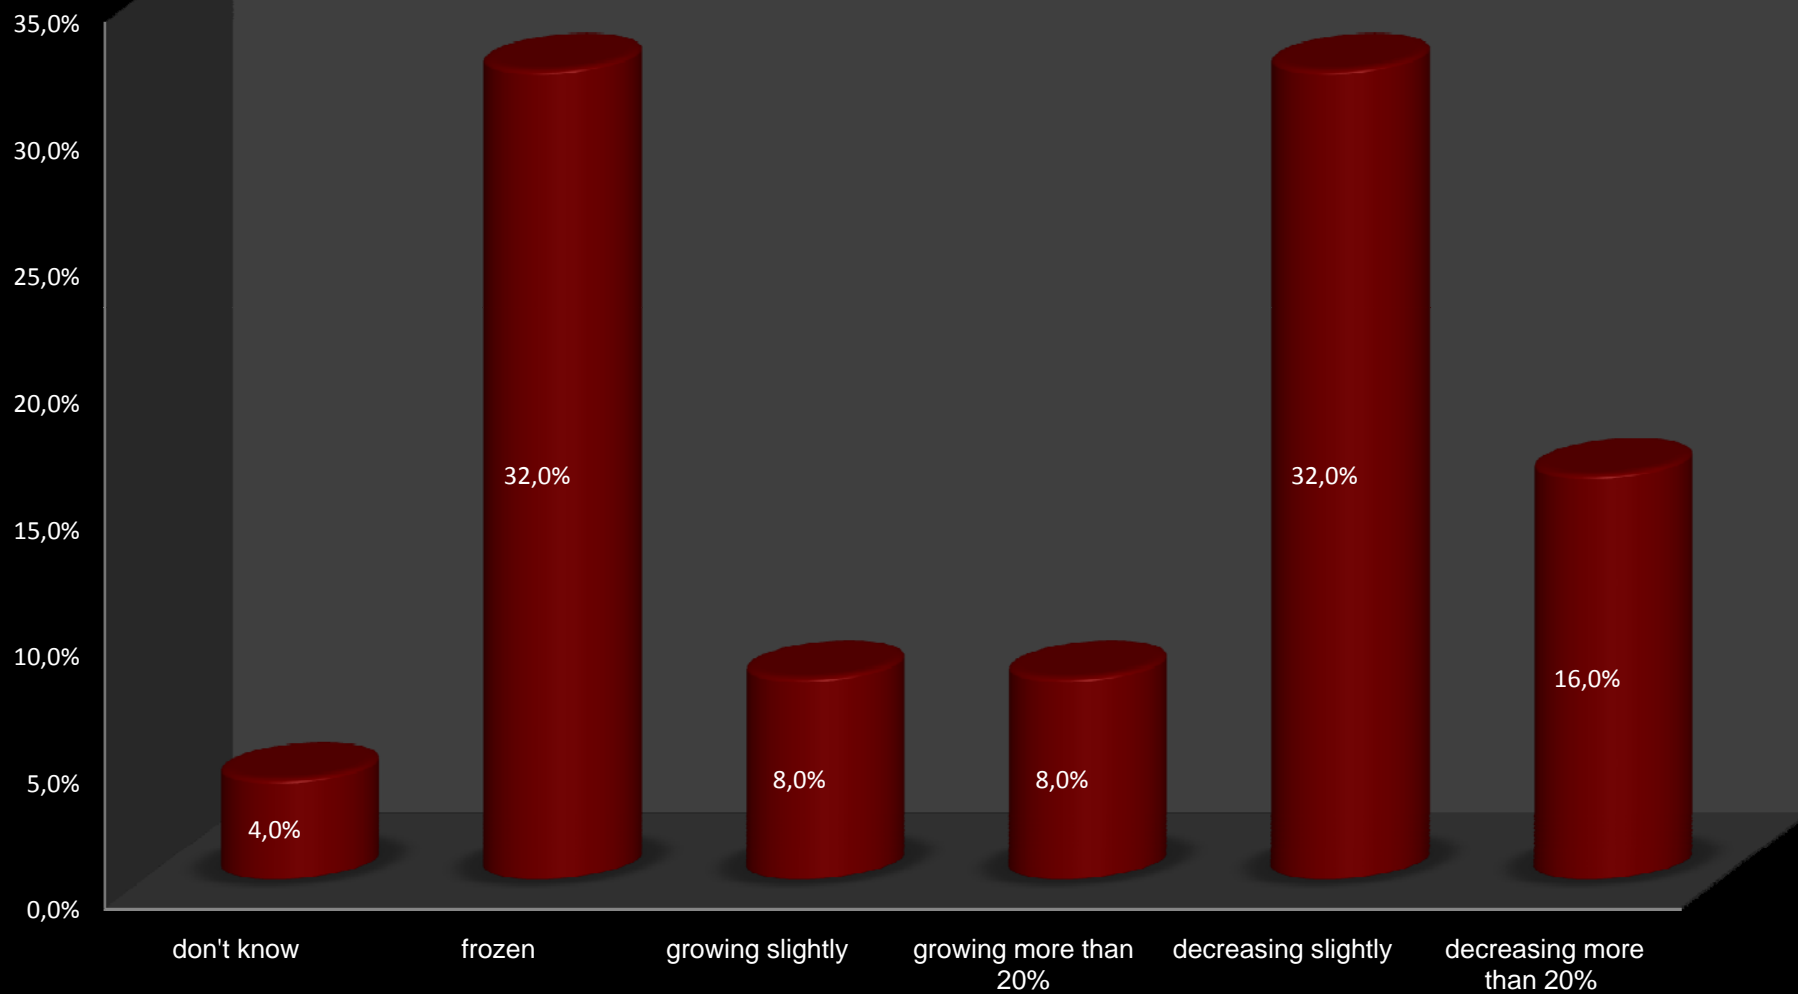

160 companies gave their priorities to
BELTUG in July/August
+ Action plan

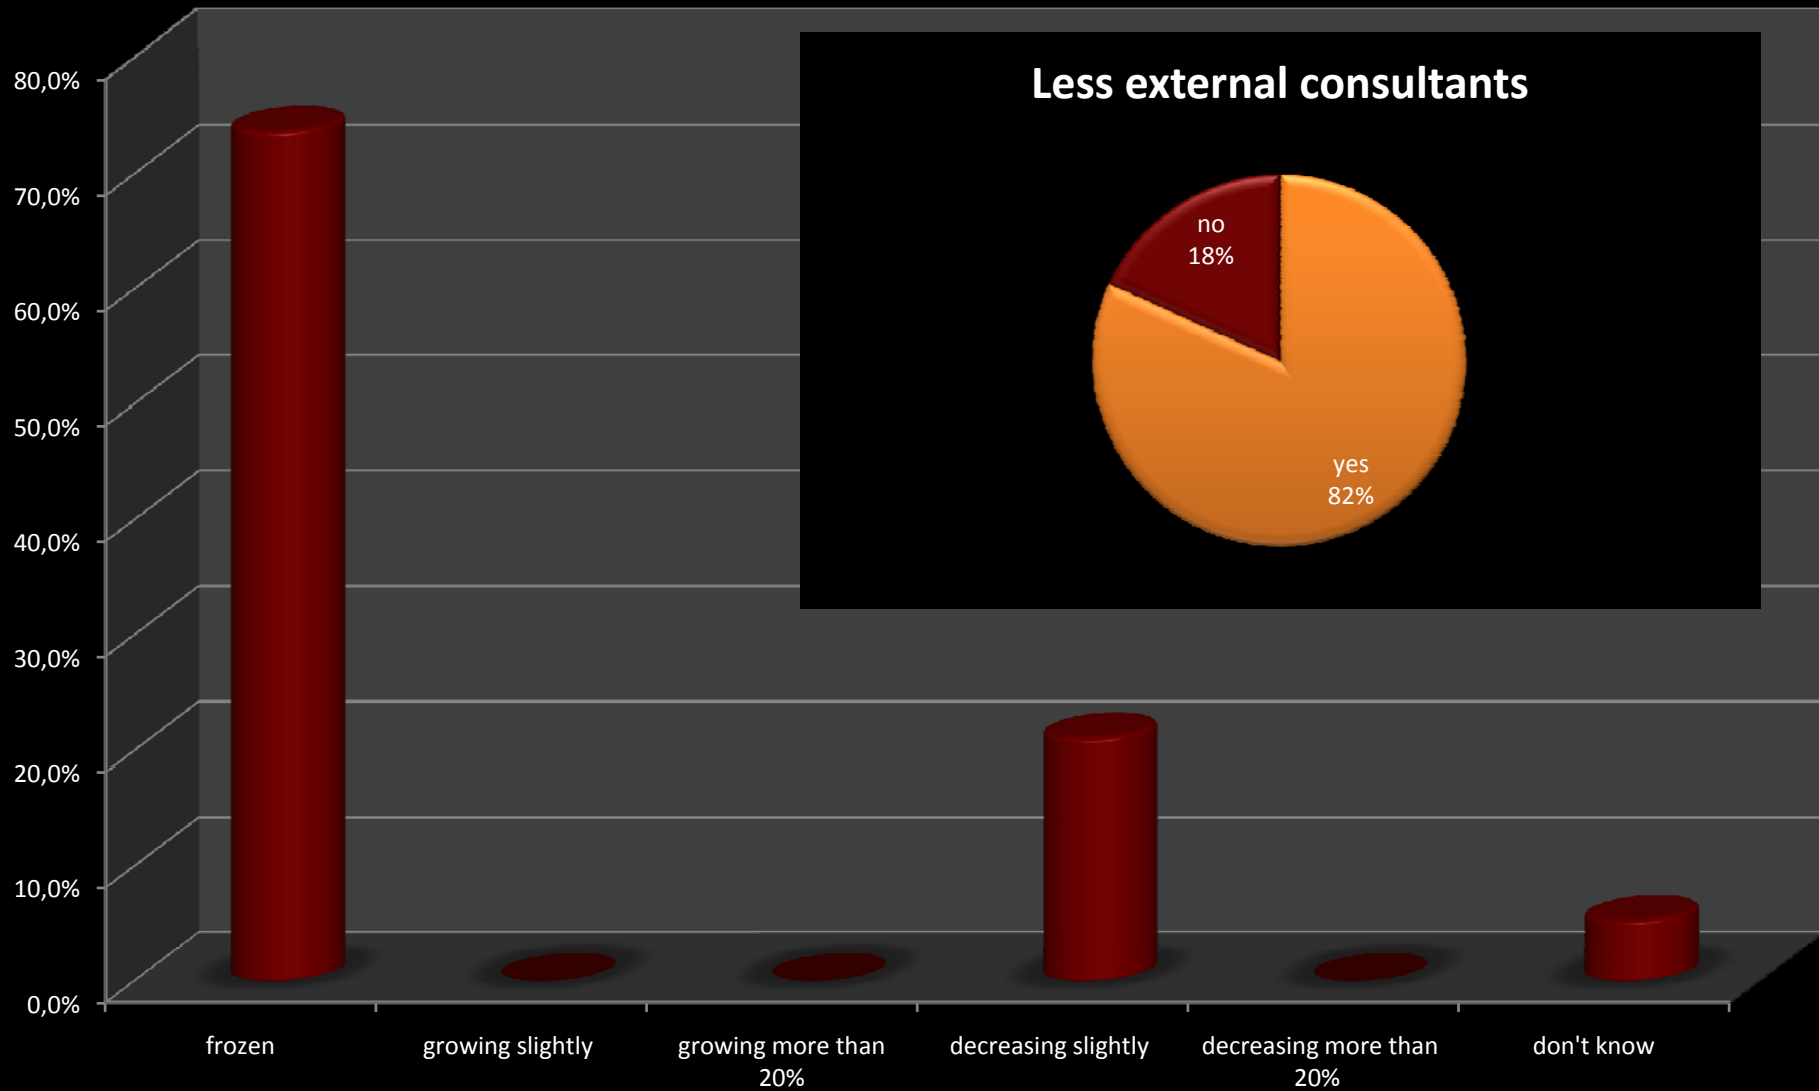

“Do we need to reconsider – offer extra
activities because of the economic
situation? “

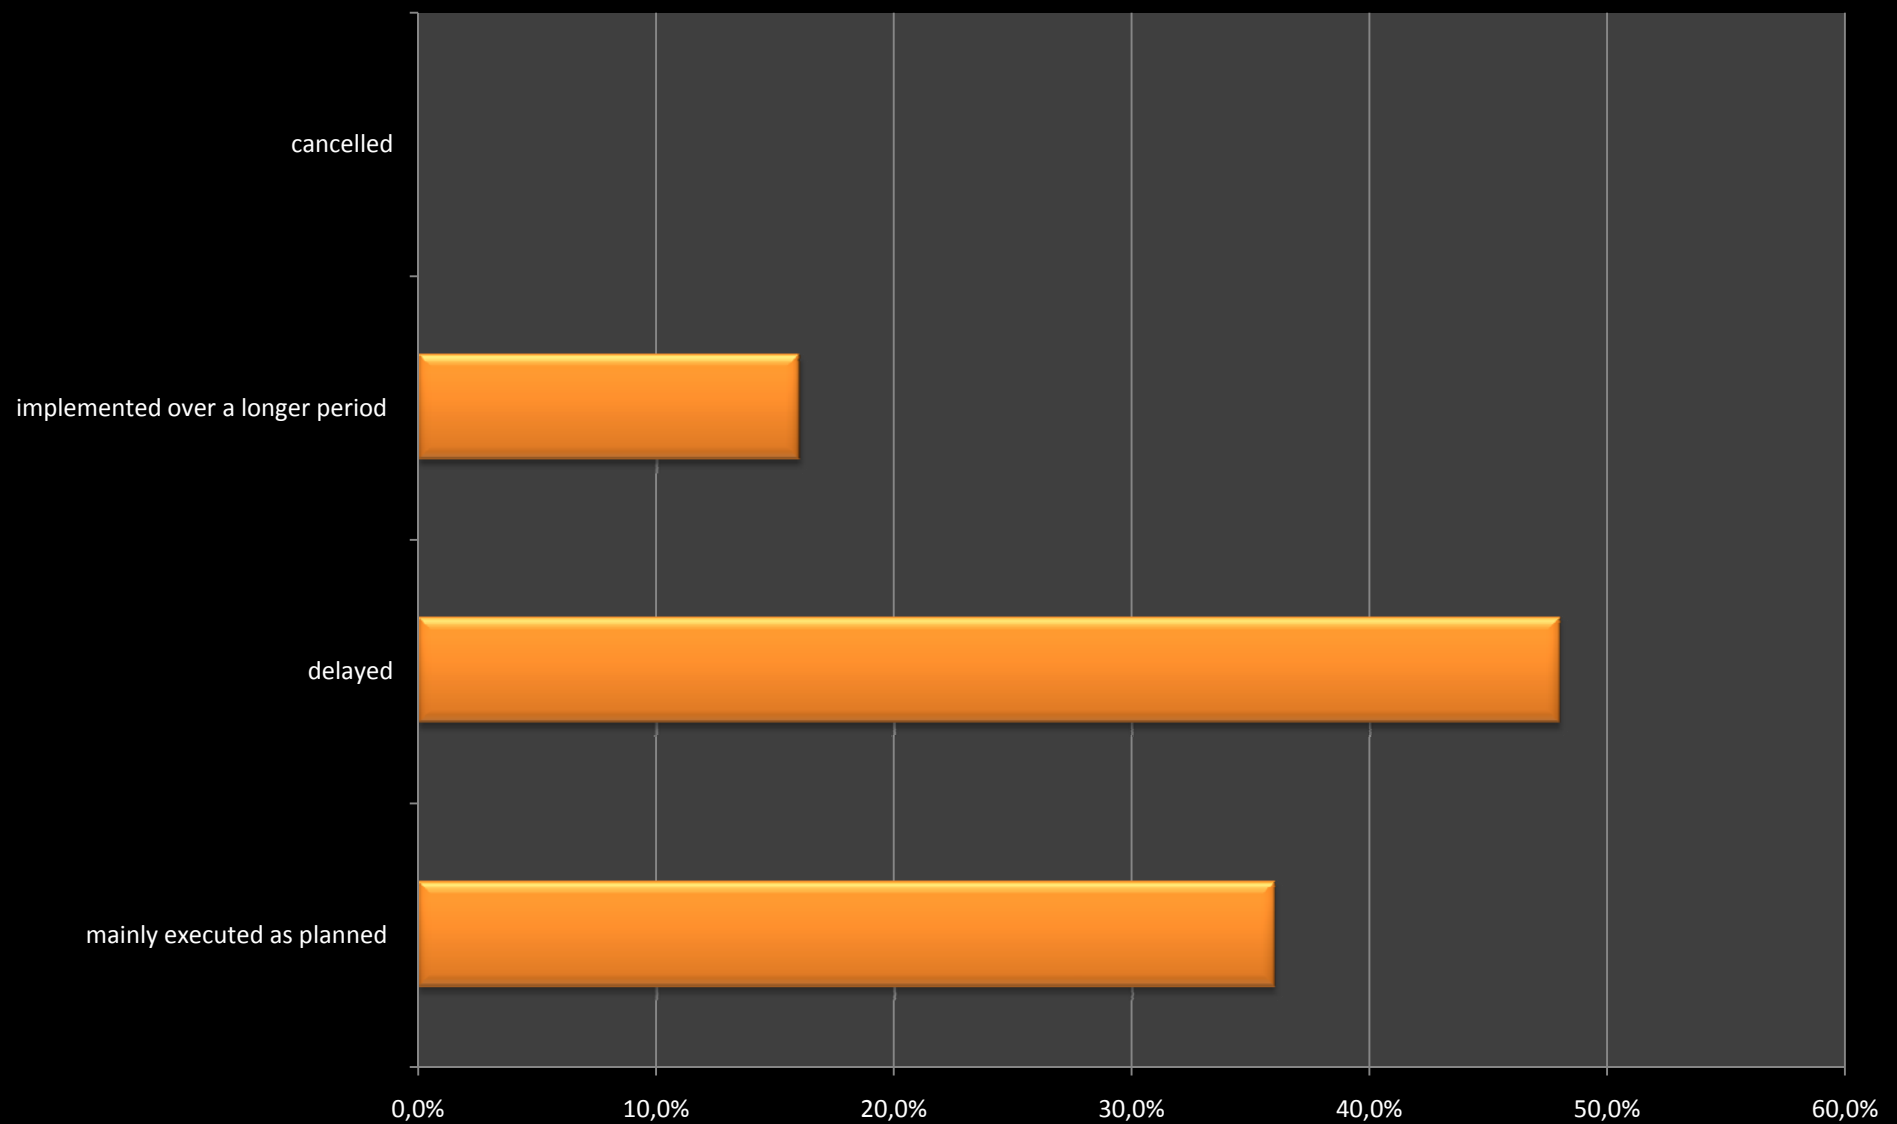

Take your place in the
BELTUG driver's seat
Participate in the BELTUG survey

Your company's ICT budget is

The list

Keep the priorities!

N

Cost effective use of ICT - more pressure to deliver cost savings - do more with less money – pressure on new AND existing contracts – user behavior – better definition of priorities (both business and ICT)

E

Challenges for ICT - Value of ICT - Can ICT improve our efficiency – How does ICT support the business - ICT now even more strategic: “re think our procedures, overhead costs, look for improvements”
